- Goal production in Poland and Polish administered Germany for the month of July 1947 amounted to 5,086,472 tons, bringing the 1 January 31 July total to 32,256,472 tons. Coke production for July was 257,375 to 18.
- Coal and coke exports during July totaled 2,170,000 tons, of whick 801,000 tons were shipped by sea.
- During July the "Centrala Zlomu" (Scrap Netal Center) collected about 60,000 tons of scrap metal; the organization had previously collected 174,400 tons during the second quarter of 1947. It was originally estimated that the deficit of scrap metal supplies for the foundry industry for the entire year of 1947 would be 220,00 tons. At the present rate of collection, however, this deficit will be cut to around 185,000 tons. By arrangement with the Soviet authorities, Poland is also receiving 20,000 tons monthly from the Russian Zone of Germany.
